# NATURAL RENEWABLE Grass Fire Log

Single 5-Pound (2.27 kg) Logs

Carton of Six 5-pound (2.27 kg) Logs

# Giant King Grass

- Renewable, low carbon, high-yield energy crop for Green Logs
- Clean alternative to coal in electricity generating power plants
- Produce methane and organic fertilizer through bio digestion
- Feedstock for nonfood biofuels (Grassoline) for cars & trucks

# Turning Giant King Grass into Green Logs

# Green Log

Log Before Packaging

6-log, 30 lb. Carton

# Green Log

# Benefits and Features

- Made from Giant King Grass, a 100% renewable resource
- Uses natural wax as a binder and palm oil as a firestarter
- Lights fully in less than 3 minutes
- Has a zero carbon footprint (as our next crop of grass grows, it absorbs the CO<sub>2</sub> emitted from the burning of the Green Log)
- Burns for up to 5 hours
- Has a natural campfire smell without additional chemicals

# Green Log

## Compared to Other Fire Logs

### 5 lb. Green Log

- Made with Giant King™ Grass (a nonfood dedicated energy crop that can be harvested several times a year)
- Uses natural wax as a binder and palm oil as a firestarter
- Has a zero carbon footprint
- Burns up to 5 hours

### Other Fire Logs

- Made with woodchips and sawdust (from trees that take up to 20 years to grow and harvest)
- Uses petroleum-based waxes and oils for binders and firestarters
- Does not have a zero carbon footprint
- Burns up to 2-3 hours

## 5-Pound Log Specifications

- Each log weighs 5 lbs (2.27 kg).
- 5 lb. logs are sold in a 6-log, 30 lb. (13.6 kg) carton
- A single pallet of 40"W x 48"L x 64"H will hold 75 of the 30 lb. (13.6 kg) cartons
- A container can hold 20 pallets
  - Equal to 1500 cartons and 9000 logs

# Additional Specifications

- 3 lb. (1.36 kg) & 1.25 lb. (0.57 kg) Green Logs are also available
- 3 lb. (1.36 kg) logs are sold in a 9-log, 27 lb. (12.25 kg) carton
- 1.25 lb. (0.57 kg) logs are sold in a 24-log, 30 lb. (13.6 kg) carton
- Logs can be sold individually or as cartons at retail
